

Fluoride varnish is an easy and quick way to prevent cavities by making teeth harder and more resistant to decay. Your child can safely have topical fluoride varnish applications 3-4 times per year even if you visit your dentist regularly.

## January, February, and March 2017 Fluoride Varnish

EIPH's Dental Hygienist will be available to provide an oral screening, fluoride varnish application and dental education for your child (children), from the start of their very first tooth (around 6 months) to 13 years at **NO COST TO YOU**. Check-in is through WIC.
